Summary

Project Status Summary

Our EventRaze (Event Management System) project is nearing completion. All major development tasks, including backend API development, frontend-backend integration, database implementation, and payment gateway integration, have been successfully completed. Currently, the team is focused on unit testing, security testing, debugging, and final deployment. Additionally, efforts are being made to enhance the frontend for better efficiency and attractiveness. We remain committed to completing these final steps within the project timeline and ensuring a seamless, secure, and user-friendly event management system.

Accomplishments As Planned	Planned but not Accomplished
Frontend UI Implementation	Security Testing (partially completed, to be finalized in the next phase)
Connecting Frontend to Backend	Unit Testing (In Progress)
Payment Gateway Integration	Enhancing Frontend Efficiency & Attractiveness (In Progress)
Database Implementation	Deployment
